We start the fires
We bring the rain
We praise the sun
We lick every new frond
in our love of the infinite

We salivate over every flower
We drum the limbs alive
We lay naked underneath the sun
We kiss while standing in cool streams
We slap the waves with pleasure
as we roll right into the sands

We are here forever and
for just a moment combined
We awaken the skies
for we are sublime

My madness is a burnt orange fox
Most of the time it is contained to its burrow
Occasionally it draws a crimson streak across life
Like a mandarin cloud at sunset
Its hues echo

oh beautiful she!
will you please come on now?
I've come all this way
please come on now!

where is she where is she where is she?
I've come here for her to see her for her!

does she have stage fright?
has she refused to come on stage
maybe?

where is she, where is she?
I've come all this way to see her now!

oh beautiful she!
will you please come on now?
she is coming on stage oh the glory
& oh she is here now she is god now she she she!
